

WHAT'S NEW?

Musa is GRAFF's new collection including a vanity washbasin, a freestanding washbasin and a freestanding bathtub.

These new luxury articles have been designed internally by G* Design Studio and have a fresh, linear look.

The three elements are all developed in Sleekstone, a new patented, composite material that combines dolomitic stone with a unique resin, to create a solid surface product. Its durable properties make its surfaces easy to clean and require minimal maintenance.

The first classical kitchen faucets from the **Axor** brand allow for maximum operability around the sink with swivel and pullout spouts. The Axor Montreux 2-Spray Semi-Pro Kitchen Faucet is assembled using finely crafted components. A sustainably minded solution, the faucet features an easily retractable spray head with two spray options and runs at an efficient flow rate of 1.75 GPM. It also boasts an easy-to-operate ergonomic lever handle.

Hindware The Oros collection of faucets is inspired by the sharp cuts on a diamond. Just like the precious gem, the Oros faucets are defined by transformative, crisp cuts that mimics the shape-shifting geometry of a diamond. The end result is a collection that is dazzling in design, unconventional in approach and perfect in form and functionality. This is a brilliant range that is a luxury style statement for your home.
